Dräger Alcotest 9510 NYSP – Change of digital signature

STATEMENT

Due to obsolescence reasons of the encryptions smart card of the backend system TRACS, this card must be exchanged and by that the encryptions cards of every Alcotest 9510.

The used software versions of the Alcotest 9510 NYSP remains bit by bit the same, including whole functionality, sizes, version numbers and checksums. But the digital signature that encloses the software parts changes, due to the change of the encryption cards.

This change of the encryption cards does not affect metrological functions, algorithms nor other settings of the updated device. After opening the instrument, a recertification is recommended.

Yours sincerely,

Thomas von Hoegen
Approval Engineer Alcotest & Drugtest
