

## Reference Gas Manufacturer Lot Number Change

November 1, 2021

CALGAZ has updated the format of their lot numbers to represent a combination of the location and the work order number. The new format is too long to fit the data entry field on the Draeger Alcotest 9510 breath test instrument. The second portion of the lot number provides sufficient unique identification and will be the number used by NYSP. For example, CALGAZ Lot # 302-402254016 will be represented as Lot # 402254016 in all NYSP records.
